

Suggested Presentation Format

Part I (1-2 minutes)

Briefly describe your project...

- how you got started
- geographic area you serve
- population you target
- services you provide

Part II (5 minutes)

Talk about the relationships and partnerships that you have with other individuals and groups that have helped you to establish and maintain your project. Name specific individuals and groups that have helped you or with whom you would like to establish a relationship or partnership in the future.

Part III (5 minutes)

Elaborate on specific benefits you have gained from coordinating and sharing resources with others. Focus on synergies, insights, and contacts that you have been able to discover that have saved you time, effort, and money. Elaborate on specific problems that you have experienced trying to coordinate and share resources with others. Focus on why you think it may be preferable to work alone, learn from trial and error, and be self-reliant.

Part IV (2-3 minutes)

Talk about your plans to network with other individuals and groups, and your vision for how these new relationships and partnerships might help you to improve and(or) expand your project. Offer some ideas for facilitating and encouraging the building of relationships and partnerships.
